THIS IS PATAGONIA

Hello everyone! My name is Mica Suarez and I'm from Argentina. I'm a very famous

influencer, and today I will tell you a little bit about one of my favorite places in the world: Patagonia.

Patagonia is a region in South America shared by Chile and Argentina. It is surrounded by coasts and three oceans. The climate is cool and dry.

You can watch glaciers at Parque Nacional Los Glaciares (Argentina), where you find Glaciar Moreno which is 30km long, 5km wide and 60m high.

If you like animals, you can watch many at Parque Nacional Patagonia (Chile), there you can find flamingos, guanacos, huemuls, pumas, viscachas and foxes. The part in Argentina which is popular because you can go whale-watching is Puerto Madryn. The trip takes about an hour and a half, but it's awesome! Another thing you can do is go hiking, climbing trekking or horseback riding.

You can also learn about Patagonian history at Parque del Estrecho de Magallanes in Chile. There is a restored wooden fort where you can see a blockhouse, barracks and a chapel. Cueva de las Manos (Argentina) is another historical place, which is a UNESCO World Heritage Site since 1999.

Patagonia is a unique place, and visiting is a must if you like travelling. I hope you liked my recommendation. Come and visit us, I hope we can meet someday

Hey there! My name is Juanpa Zurita, I'm a famous Mexican influencer. And today, I want to tell you about a very special place here in my country: Chichen Itza. These famous Mayan ruins are in Mexico, in the Yucatan Peninsula. If you want to visit Chichen Itza, swimming in a Cenote is a must.

Cenotes are natural water pools underground. You can swim in them and admire the beauty of the clear waters.

There is also a complex of pyramids which you can admire, the pyramids are very ancient and marvellous to see. The Castillo is an example, a castle-like pyramid,

temple of the god Kukulcan. The Templo de los Guerreros is a temple of 200 pillars, carved and showing great colors.

Well, what can I tell you. Visiting Chichen Itza is a great experience. An experience where you can learn about the past, and take care of the present.

Hi everyone! Let me introduce myself. My name is Fabii Puffle and I'm from Costa Rica. Have you ever heard the expression Pura Vida? Well, we use it to express the beauty of my country.

I'm always inviting new people to come here. You can go to any of our famous beaches with friends or family, and maybe stay by the beach to watch the sunset. You can take a boat to navigate around Playa Tamarindo. During springtime, me

and my friends like to go to the Oropendola Waterfall, which is fun and exciting. We also go horseback riding in this area. This tour takes about two hours and a half, but if you go early, you can come back early too.

If you come visit us, I will take you to the Irazu Volcano, the Orosi Valley and the Lankaster Garden in San Jose. I can't wait for you to be here!

**Read and listen about life in Panama. Then, answer the questions.**

## **LIFE IN PANAMA!**

Greetings from Panama, dear friends! This is me, Diego de Obaldia, and I will tell you about our life in Panama.

Panama is a country on the isthmus, linking Central and South America. The Panama Canal, a famous feat of human engineering, cuts through its center, linking the Atlantic and Pacific oceans to create an essential shipping route. In the capital, Panama City, modern skyscrapers, casinos and nightclubs contrast with colonial buildings in the Casco Viejo district and the rainforest of Natural Metropolitan Park.

You can never be bored in Panama! If you are here for the first time, you can book tours such as a day tour to the rainforest if you are short on time. There are tons to choose from, that also include visiting the Embera Indians and more.

Another thing I recommend you is to go get fresh lobster in San Blas. You can buy it from Guna Yala tribesmen, use a machete to cut wood, make a fire, and cook it with butter and garlic.

If you enjoy music, Panama City is all about Jazz music. The most popular spot in Panama City is Danilo's Jazz Club.

Another attraction is the Coca-Cola Café, the oldest Café in Panama City, located just outside Casca Viejo in a safe part of town – you can walk there to have beans, rice, and Panamanian specials of the day and of course a Coca-Cola.

Street food in Panama is also a must! Sweet snacks covered in syrup, empanadas, drink tap water, try the fruit juices and take cut up fruit with you while you walk around.

I can go on and on about the many different things you can do in my country. So next time you want to go abroad, try Panama! You will absolutely love it.

**BIG AND SMALL ANIMALS**

**Listen to the story about a group of animals. Look at the picture and identify the animals.**

This is the house of Sha. Sha is a huge elephant who lives with many of his friends. His best friend is one of the smallest animals, a mouse called Tik. Tik and Sha, have another friend: Nanis the giraffe. Nanis has a long neck, the longest in the group. She can eat leaves from tall trees.

Another friend they have is Tian the orangutan. Tian is a big, fat animal. He is so fat, he cannot walk anymore, so he sits under a tree and gives advice to animals.

Today they have a meeting because Ron, the cricket, has news. Ron is a tiny animal, so tiny he has to wear a flag so that no one steps on him.

Ron: Dear comrades, we are here today because we have a problem. Rolo, the crocodile, is having trouble finding food and he wants to eat Sierra, the hyena. He says that she is so round and chubby, she will make a perfect meal because he is becoming very thin.

Din, the lion, spoke:

Din: I don't care if the crocodile is hungry. He should learn to be a vegetarian like the rest of us. My family is already learning to eat the immense amount of leaves the Nanis gives us everyday.

Then, Cucu the possum said:

Cucu: I agree with the majestic lion. The smallest problem right now could cause a chaos.

A very wise animal known as Toto, the toad, was listening to all the noise created by all the animals who were opposing to the idea of the crocodile.

Toto: The truth is, dear comrades, that we live in such big space and there are many other options we can offer Rolo.

Everyone talked about it. And they decided to send Toto to talk to Rolo.

Rolo and Toto spoke for an enormous amount of time. And they finally decided to teach Rolo how to eat herbs and fruit.

Everyone is happy today.

Hello! My name is Bianca and this is my hometown, Montebello.

At Montebello, we have a library, which no one uses anymore. But we respect books, so it still exists. It is next to the school. In front of the school, we can see a park, they call it park Bonanza. Near the park, you can see the big buildings for the police station and the fire station.

Behind the supermarket, you find the cinema. The restaurant is between the cinema and the museum.

At the east side of the town, in the corner of Santa Maria Street and Travis Boulevard, there is a big mall.

If you go north, you can find the drugstore in front of park I. But if you walk along Sunset Avenue heading south, you can go to the gym and have some pizza after that; the pizza place is behind the gym.

You can take money from an ATM at the local bank, which is in every corner of every important place in this town. And outside the bus station, there is a taxi stop in case you need one. Or you can also call them.
